**Objective** To contribute my strong software product development, assembler coding skills and extensive experience to an advanced mainframe software development team.

- Profile**
- Solutions oriented professional consultant with fifteen years of significant, progressive experience in information technology consulting, focusing on custom development projects, as well as customization of packaged products.
  - Creative technical wizard with an additional ten years of enterprise software product development experience.
  - Experienced product developer who has successfully participated in large project teams of 10+ people from requirements gathering through to implementation and support.
  - Dedicated, self-motivated achiever who is committed to success and adept at performing multiple tasks in a high-pressured environment.
  - Strong problem solver who can design solutions and assist development team with issues.
  - Excellent communicator with exceptional team building skills.

**Experience** **Self-employed Consultant**, gmg software consulting, inc. 1989 – Present

- Specialist in the technical aspects of Walker Interactive Systems\Elevon software.
- Technical Lead on many implementation teams installing, upgrading and customizing the Walker packaged software applications.
- Customizations include many assembler language interfaces to MVS and CICS resources and functions not standard to the Walker applications.
- Conversions/Migrations performed from VSE to z/OS, VSAM to DB2, IDMS to DB2, IMS to DB2, CICS Macro to CICS Command Language.
- Environments: CICS/DB2, IMS-DC/DB2, IMS-DC/IMS-DB, CICS/IMS-DB, CICS/VSAM, CMS/VSAM, CICS/IDMS, MVS, OS/390, Z/OS and VSE
- Responsibilities include: Assembler programming, COBOL programming, DB2 administration and database design; SQL programming; CICS systems programming , product installation, unit and system testing, maintenance and support, Walker Tools programmer.
- Clients include:

Lawson Products  
University of California, Los Angeles  
Smithsonian Institution  
SABRE/American Airlines/USAir  
Dow Jones, Inc.  
Mercury Marine  
CUNA Mutual Group  
Montgomery Ward  
FDIC  
West Valley Nuclear Services

**Product Developer**, Walker Interactive Systems 1979 – 1989

- Key member of Walker 'Bridge' design, development and support team for the following environments: CICS, DB2, IMS-DB, IMS-DC, VSAM, IDMS, DATACOM, ADABAS
- Designed and developed over 200 assembler modules and macros for the above noted environments
- Created dozens of client specific assembler language components
- Supported and maintained over one million lines of assembler code
- Member of application development and support team for Accounts Payable, Purchasing, and Inventory Management, and Management Business Accounting
- Additional responsibilities include: Assembler programming, COBOL programming, systems programming, database administration, Customer support, problem resolution, performance tuning, product enhancement, product installation

**Skills** IBM Assembler, COBOL, TSO/ISPF, MVS, OS/390, Z/OS, VSE, DB2 Utilities, SQL, JCL, Panvalet, Expediter, VSAM, CICS, IDMS, IMS, DATACOM, ADABAS
